Dear Parent/Guardian

RE: UPDATE ON CURRENT STANDING

We would first like to appreciate all parents and guardians, for entrusting the Kagaki family with your child(ren)'s education and wellbeing. This is a weighty task, that we do not take for granted, understanding that each child is a unique gem, by which our role is to make them shine brightest in their own individual nature. This we do with total dedication, to ensure that we bring out a child who can effectively face all challenges of life.

The current global situation affected all occurrences, considered as normal life, forcing each of us to restructure our way of life. Schools have been closed since the 15th of March 2020, following the government directive, in efforts to curtail the spread of the corona virus. This necessitated the need for us to come up with strategies to ensure continuity in education for our children, while at home. Upon deliberation among the management, and discussions with the PTM members, we came up with online teaching, which kicked off on 4th May, and has been successfully going on, to date.

We thank the parents and guardians who shared in our vision, and supported us in this new venture, both by entrusting us with their children, and offering ideas to fine tune the online process. More so, we applaud all those who have been able to fulfil the financial requirements for the online learning process. It is because of you, that the institution has managed to keep supporting the huge work force under its care, and for that, we are truly grateful. Your sacrifice will definitely never be forgotten. As initially agreed, the amount paid off, will be deducted from your child's fee, for whichever term we will resume. In addition, those who paid the full online learning fee for the month, will further get a fee rebate of 25%, of the term's fee. This is to express our gratitude, for the immense support you've accorded us. Note that these deductions, only apply to those who paid in the period between 04/05/2020 - 31/05/2020. May the good Lord bless you abundantly.

Finally, the management has come up with a few possible strategies for the future, as we wait for guidance from the ministry of education. This is in order to ensure continuity of education for our young ones. We will communicate the way forward after new directives from the ministry, possibly by end of the week. We hope that you will continue to give us the unending support that we get from most parents and guardians, as we strive to be recognized leader, in all spheres of the learning process.

Stay safe, God bless you, and God bless Kagaki.

Regards;

James Kimathi
Deputy Director
Kagaki School
